Use of Methi, Wheat, Moong and Masoor based combinations with Medicinal Rice and millets in treatment of Type II Diabetes through ST-234.

Pankaj Oudhia

Introductory Note

In Traditional Healing, the Traditional Healers of Indian state Chhattisgarh use Methi (*Trigonella foenum-graecum*), Wheat (*Triticum aestivum*), Moong (*Vigna radiata*) and Masoor (*Lens esculenta*) based combinations with different types of Medicinal Rice and millets in treatment of Type II Diabetes through Special Treatment 234. They use it in form of 52 weeks schedule in four sets. I have documented this Traditional medicinal knowledge and added it in Type II Diabetes report in Ecoport.

Recent Ethnobotanical surveys resulted in new information and based on it I prepared modified schedules by adding new herbs and herbal combinations. The basic as well as modified schedules are present in CGBD database. The efforts are in progress to make CGBD database online. The present documents show basic and modified schedule no.1.
